

android::os::AsyncTask< String, Void, Boolean >

Bitmap

org.opencv.samples.tutorial2.MainActivity.BackgroundLoadingTask

zdj

```
classDiagram
    class AsyncTask["android::os::AsyncTask< String, Void, Boolean >"]
    class Bitmap
    class BackgroundLoadingTask["org.opencv.samples.tutorial2.MainActivity.BackgroundLoadingTask"]
    BackgroundLoadingTask --|> AsyncTask
    BackgroundLoadingTask ..> Bitmap : zdj
```

The diagram illustrates the relationship between three classes. At the bottom is the class `org.opencv.samples.tutorial2.MainActivity.BackgroundLoadingTask`, which is highlighted with a grey background. A solid blue arrow points from this class to the `android::os::AsyncTask< String, Void, Boolean >` class above it, indicating inheritance. A dashed purple arrow points from the same bottom class to the `Bitmap` class, labeled with the variable `zdj`, indicating an association.
